

Typical In Home Experience

A whiskey education experience with Distilled Tastings is an engaging event that can be enjoyed by both the whiskey connoisseur as well as those just starting their whiskey journey. All events are 100% customizable in order to make it as personalized for the group as possible. However, a typical experience consists of 3 parts.

Part 1: Each individual or couple will make their own elevated whiskey cocktail. All glassware and ingredients are provided by Distilled Tastings.

Part 2: As we are enjoying the cocktail we will put our noses to the test in a fun light hearted competition smelling different items that we will notice later on in the whiskey. Can you smell a banana without seeing it? We will find out!

Part 3: Think you can notice the difference between a \$30 and a \$100 whiskey? Finally, let the double blind tasting begin. Without knowing what you are drinking until the end, we will dive into tasting 6 whiskies, noticing the unique nuances that make each one special. As we taste, we will talk through any and all of your whiskey questions like how is whiskey made, what makes a whiskey a bourbon or scotch, and how to find a great bottle. At the end of the tasting the bottles will be revealed and you'll find out what your favorite was. You may be surprised at the results.

Experience duration 90 -120 minutes

Set up time before tastings - 60 minutes
